Legal Disclaimer

CONSUMER ACCESS PRODUCT DISCLAIMER

The National Motor Vehicle Title Information System (NMVTIS) is an electronic system that contains information on certain automobiles titled in the United States. NMVTIS is intended to serve as a reliable source of title and brand history for automobiles, but it does not contain detailed information regarding a vehicle's repair history.

The compilation of instaVIN vehicle history and title reports requires data from multiple third party data suppliers and other various data sources which may supplement data supplied by NMVTIS or its sources. instaVIN, a service of MobileTrac LLC, relies on its data sources for the accuracy and reliability of its information. Therefore, instaVIN or its agents assume no responsibility for errors or omissions in this report. In addition, instaVIN, expressly disclaims all warranties, express or implied, including any implied warranties of merchantability or fitness for a particular purpose. © 2014 MobileTrac LLC. instaVIN Vehicle History & Title Report

All states, insurance companies, and junk and salvage yards are required by federal law to regularly report information to NMVTIS. However, NMVTIS does not contain information on all motor vehicles in the United States because some states are not yet providing their vehicle data to the system. Currently, the data provided to NMVTIS by states is provided in a variety of time frames; while some states report and update NMVTIS data in real-time (as title transactions occur), other states send updates less frequently, such as once every 24 hours or within a period of days.

Information on previous, significant vehicle damage may not be included in the system if the vehicle was never determined by an insurance company (or other appropriate entity) to be a "total loss" or branded by a state titling agency. Conversely, an insurance carrier may be required to report a "total loss" even if the vehicle's titling-state has not determined the vehicle to be "salvage" or "junk."

A vehicle history report is NOT a substitute for an independent vehicle inspection. Before making a decision to purchase a vehicle, consumers are strongly encouraged to also obtain an independent vehicle inspection to ensure the vehicle does not have hidden damage. The Approved NMVTIS Data Providers (look for the NMVTIS logo) can include vehicle condition data from sources other than NMVTIS.

NMVTIS data **INCLUDES**: (as available by those entities required to report to the System):

- Information from participating state motor vehicle agencies.
- Information on automobiles, buses, trucks, motorcycles, recreational vehicles, motor homes, and tractors.
- NMVTIS may not currently include commercial vehicles if those vehicles are not included in a state's primary database for title records (in some states, those vehicles are managed by a separate state agency), although these records may be added at a later time.
- Information on "brands" applied to vehicles provided by participating state motor vehicle titling agencies. Brand types and definitions vary by state, but may provide useful information about the condition or prior use of the vehicle.
- Most recent odometer reading in the state's title record.
- Information from insurance companies, and auto recyclers, including junk and salvage yards, that is required by law to be reported to the system, beginning March 31, 2009. This information will include if the vehicle was determined to be a "total loss" by an insurance carrier.
- Information from junk and salvage yards receiving a "cash for clunker" vehicle traded-in under the Consumer Assistance to Recycle and Save Act of 2009 (CARS) Program.

Consumers are advised to visit www.vehiclehistory.gov for details on how to interpret the information in the system and understand the meaning of various labels applied to vehicles by the participating state motor vehicle titling agencies.

instaVIN CONSUMER ACCESS DISCLAIMER

The compilation of instaVIN vehicle history reports requires data from multiple third party data suppliers and other various data sources which may supplement data supplied by NMVTIS or its sources. Sections of this Vehicle History Report indicated with an asterisk (*) are based on NMVTIS data and NMVTIS data sources. Thus, the above Consumer Access Product Disclaimer applies solely to NMVTIS data and NMVTIS data sources. NMVTIS provides data directly from its databases to instaVIN consumers through the AAMVA tested and approved instaVIN interface on a "read-only" basis. instaVIN does not supply or enter any data into the NMVTIS databases and is not responsible for supplying any data contained in any NMVTIS Vehicle History Report. Therefore, instaVIN cannot warrant or guarantee the accuracy of any information contained in any NMVTIS Vehicle History Report data.

In the event that NMVTIS Vehicle History Report Data shows current and historical states of title, as provided in any NMVTIS Vehicle History Report, instaVIN consumers have several options regarding full vehicle history records from the current and historical states of title. These records, if such records exist, are available for purchase. Please contact customerservice@instavin.com. Should you require more information, please contact the state of current title and the state of historical title as provided on your Report. This information is subject to change from time to time and is accessible here: <http://instavin.com/AAMVA-state-list>
