

Hennessey HPE 600 2010 Camaro SS (Build #68)

LAKE FOREST, CA – This is the Hennessey HPE 600 2010 Chevrolet Camaro SS (Build #68).

It produces 602 HP with an exhilarating 595 ft lbs of rear wheel torque, delivering supercar levels of performance.

There are very few 5th Generation Camaros that can match the beauty, power, and unique features of this custom engineered HPE 600 Camaro. The special attention to detailing on this black 5th generation SS Camaro is superbly accomplished. The aesthetics of this supercar are deliberately understated with an elegant exterior design scheme of black with white-striped accents. The red Stop Tech Brake calipers subtly complement the interior red Hennessey logo branding to further define the unique design scheme of this car.

Features & Specifications

- **HPE 600** Performance Package, badging and special carbon fiber finishes.
- **Magnuson** TVS-2300 Eaton roots-type supercharged aluminum LS3 engine producing 602 bhp and 595 lbs of rear wheel torque. **CARB Certified in California**
- **Bosch** Upgraded Fuel Injection System.
- **Stop Tech** 15 inch drilled and ventilated disk brake rotors with 6 piston calipers in front and 4 piston calipers in rear.

- **Hotchkis** Lightweight 1.25" tubular front and 1.00" rear performance sway bars with integrated four point design front strut tower brace - significantly eliminating understeer and body roll - dramatically improves steering response and control.
- **Blstein** Heavy Duty Premium Performance Street High-Pressure Nitrogen Shocks. These shock absorbers provides the necessary damping to react quicker to road conditions, keeping the tires in constant contact with the road for improved control.
- **Eibach** Progressive Sport Springs for improved performance handling for street or track driving.
- **Richmond Industries** 373 ring & pinion rear end gears
- **Savini** Mono di Forza 22" custom forged aluminum lightweight five-spoke powder coated black wheels (white inner ring accents) with Continental Extreme Contact DWS tires.
- **GMPP** Tracker Stainless Steel Axle Back Exhaust
- **Barton** Short-Throw Shifter
- **Chevrolet GMPP** Heritage Grill
- **Street Scene** ground effects body kit
- Xenon ballast kit HID 8000 K white-blue headlights and 4000 K amber fog lights.
- **Kenwood** Excelon DIN Built-in GPS Navigation System with In-Dash Kit and Back-up Camera
- **JL Audio** Evolution C5 Component Speaker System with 10" Sound Woofer & Power Amplifier.
- **Katzkin** Limited Camaro Black Leather Package L998-100 (with pearl white wing accent striping) works seamlessly with this Camaro's striking black and white contrasting color scheme.
