

GALEN'S REGISTRY LETTER

I may have just taken a photo of your dash VIN and/or fender tag (aka: body code plate). Have you ever wondered how many cars like yours are accounted for? We encourage you to only display copies of the factory and dealer documentation you have for your vehicle, including broadcast sheet, window sticker and warranty information. If you want your info kept confidential, please contact me. I am interested in preserving the Mopar hobby, are you?
