

6. VIN stamped on New Process A833 Transmission-found on passenger forward side of the transmission case.
- A. The number PP=New Process, 833=4 Speed, 2482 is the 10K date code, which decodes as May 14, 1968. The 0019 is a sequence number. You can see the last 8 digits of the VIN on the top row. This is the original transmission for the vehicle.

- A. The casting date of the 4-Speed manual transmission case is found on the drivers' side forward of the side cover. The date looks to be 4x12x68 (April 12, 1968).

In 1968, the Certicard is typically found inside the back page of the owner's manual (File photo/example).
There is no Certicard for this vehicle.

Enclosed is a photo of the speedometer/odometer, current mileage shows: 45,941 miles.

This vehicle comes with no factory (or Dealer) documentation specific to this VIN.

The scheduled production date of the **1968 DODGE Super Bee 2 Door Coupe** is on or about **522-May 22, 1968**. All original items on the vehicle should be dated before that date.

NOTE: LH & RH is determined from the driver's seat. LH = Drivers side of the vehicle.
